Hi, My wifes 2004 xc90 diesel has recently had power issues. When driving the car suddenly loses power/acceleration. The message "engine system service urgent" pops up. The car still drives but greatly compromised. However if i stop the car and turn off the ignition the message goes away and drives normally.

So I just bought my 2007 XC90 3.2 a week and a half ago. No issues until today, completely out of the blue the message popped up "Power System Service Requested" and the battery light came on. I was driving back home (25 miles to go) so I thought okay, I'll check this out when I get home. Now this next part all happened pretty quickly.
