

2011 srx cadillac service power steering system site cadillacforums com

I have a 2011 Cadillac SRX that makes a loud grinding noise when making tight turns in temperatures below 40 degrees. I have had the power steering pump replaced twice. ... [89446-2011-srx-power-steering-goans-like.html](#) Cadillac Forums is the perfect place to go to talk about your favorite Caddys including the ATS, CTS, SRX, Escalade ...

To troubleshoot this system yourself, you need the full service manual which will provide a breakdown of how the system operates, its power feed bus, and sensor/control inputs and logic. Be extremely careful if you do ANY testing with the battery connected because this system is designed to be fed with high current and will easily weld a ring ...

A few days ago I crank up the 2015 SRX and see abs, brake warning and traction control lights on. Also, the display screen says service power steering and service stabilitrak. When I attempted to start driving, I noticed I had no power steering. I took it to a local tire and brake shop and left car there until next day.

The Cadillac dealer in this area suffers from turnover. Three different Service Managers and goodness knows how many mechanics. It is hard to find and keep good people these days. If I take my SRX in and discuss a repair the Service Manager (of the day) will apologize for the problem, then assign a mechanic that has worked there less than a week.

2011 CTS Coupe FE3, 2003 Thunderbird, Gone 2013 ATS, 02 Deville ... my 2008 V8 SRX has almost no power steering assist when turning at low speed or parking. If I put it in park on the driveway and turn the wheel it is very difficult. ... which is common for these cars. It can still keep the battery alive and not even trigger the "service ...

I have on board voltage 13.7 - 14.6 V first 5-15 min of riding. 12.5- 12.6 V all rest of the time (Winter time). 13 - 13.5 V summer time. if on board shown voltage is true then I guess it is still ok voltage and activation of other systems" alerts shouldn't happened.

The power steering service indicator came before the power save mode indicator, that's a good indication the problem is with the power steering, ... short, your alternator can be "weak", still keep the battery and starter alive, yet not be strong enough to run the power steering solenoid and other systems properly. ___ 2009 CTS 3.6L DI rebuilt ...

Ironic thing is when the brake error messages were showing, the power steering would work most the time. When I added brake fluid, the brake errors went away, but power steering errors came back more. Sometimes Power Steering cuts out after driving for 20 minutes, other times it happens shortly after pulling out of the driveway.

03-02-36-001A TSB Service Steering System Message On, Diagnostic Trouble Code (DTC) C0450 or C1241 Set (Replace Variable Effort Steering (VES) Solenoid) March 16, 2004 ... I believe that is called the VAPS Solenoid. (Variable Assist Power Steering). Good luck with that! ((Caution :: The more technology is in our cars - the more can go wrong ...

Hello all, i recently purchased a 2015 SRX luxury for my wife with 20k miles. As she was leaving for church today, i thought i heard a whine like you might hear from a power steering pump. When she got home, i decided to check the fluid. I waited 1.5 hours so the engine was cooler but still pretty warm and the power steering dipstick was at "min".

Up to\$9cash back· Connecting a scan tool to the ABS system will be necessary to see why the warning light is on because there are many different components in the system that could ...

I started getting the dreaded "Service Stabilitrak" message on my 2011 Cadillac SRX dash. It also shows ABS, Traction Control, and Brake indicator lights. This happens intermittently, usually when I first start up in the morning and start driving. If I sit and let the car idle for a few minutes it doesn't happen.

GM: on certain 2011 cadillac srx there may be a power steering leak due to wear on the steering gear return line. *rm updated 5/24/11. Discuss it at Forum. More Cadillac SRX Power Steering Fluid Service Bulletins of Other Model Years. 2015; 2014; 2013; 2012; 2010; 2009; 2008; 2007; 2006; More Power Steering Fluid Service Bulletins of Other 2011 ...

Hi Guys just pickedeupa2012 SRX with 100,000 miles was running perfectly fine parked it and upon getting back into the car. I got a message on dash saying service stabiltrac sytem shortly after the service power steering message came on as well the steering became much harder. No issues with vehicle prior till now. .

Identify restrictions in the system. 1 Inspect the power steering fluid for the following indications of contamination: Milky fluid - water Brown fluid - burnt Debris in fluid - plastic or dirt Is the fluid free of contamination?-Go to Step 3 Go to Step 2 2 Flush the power steering system. Refer to Power Steering System Flushing .

2011 CTS4 steering & other problems. ... While driving a few weeks ago, I made a right turn and the wheel didn't want to come back on its own, but not like a power steering issue, more like something in the steering or right front wheel. ... 2011 srx cadillac service power steering system site cadillacforums com

How many quarts of oil for power steering and what type. I have a 2012 cadillac srx I've moved your thread to the appropriate forum and modified your thread title for the best exposure. Welcome to Cadillac Forums, Robert.

Run the engine at idle while an assistant maintains the fluid level at FULL COLD in the reservoir using new approved power steering fluid. Important: This step may require 4 Liters (4 quarts) of power steering fluid until the draining fluid appears clear. Do not run the engine without the power steering fluid level at FULL COLD. Turn off the ...

The VES system uses the steering wheel position sensor input to calculate lateral acceleration during abrupt driving maneuvers. The system also uses the antilock brake system (ABS) wheel speed sensor inputs to determine vehicle speed. The EBCM is constantly monitoring these inputs to achieve the desired current to the VES actuator.

The steering wheel feels a lot harder than normal to turn. My mechanic replaced the Power Steering Pump, and the Power Steering Fluid Cooler. But the wheel still feels hard, and the TC, ABS and BRAKE light and "Service Steering System" is still on. Can it be something with the electrical if so what part do I need to buy.

So Friday night, 2hrs after getting an oil change, my "service power steering" light came on and the car became difficult to steer. ... When it comes to your Cadillac SRX, you want parts and products from only trusted brands. Here at Advance Auto Parts, we work with only top reliable Power Steering Fluid product and part brands so you can shop with complete confidence. Some of our top Power Steering Fluid product brands are Prestone and Valvoline.

This rarely happens around corners, mostly straight lines at 50 MPH. I pulled into my garage last night to get the car shelter from the storm, and when I stopped, I got the "Service Stability System" message. Put the SRX in park, and the radio (basic) screen went blank for about 15 seconds until I power cycled the radio.

SRXs have hydraulic power steering. When they brought out the XT5 they switched to electric power steering. Oh, and BTW the fluid reservoir is under the engine cover (at least on my 2014). That's interesting. I read the thousand plus pages in the manuals and saw no reference to checking the power steering fluid. Maybe I missed it.

Hi, i need to replace power steering pump. Does anyone that say me how much new power steering fluid i need, for filling of all circuit ? ... Cadillac SRX V8 - 2004, now less 3100mi/year because 7.42\$/gal...
