The power supply control system is one of the most important local control systems of HL-2M tokamak. The power supply system of HL-2M is composed of four flywheel generator sets with total capacity of 600 MVA, all the magnetic field coil power supplies and high voltage power supplies of auxiliary heating system. The control system of power supply should make ...

Profile: 2M Power Systems Ltd. specializes in providing diesel engine components for use in hazardous areas. Our product portfolio consists of products like tachometers, oil pressure, exhaust & water temperature gauges, control cables, engine starters, and AC filters.

Enovate Systems Limited is an industry leader in well completion and intervention systems focused on design, development, manufacturing and testing of bespoke engineering solutions for oil and gas clients across the energy sector. Established in 2002 as technology provider to the oil and gas sector...

The GaAsFET preamp is the best in-shack 2-meter preamp I've ever used and really peps up the IC-706MkIIIG on 2-meter receive. The 706 has about a 9 dB 2-meter noise figure with the built-in preamp off and about 4.5 dB with it on, but the 1412G has a noise figure of 0.7 dB so even with the coax loss ahead of it the system noise figure still ...
