Don't confuse a 48v solar panel with a 48 watt solar panel by accident. The power of a panel, which is measured in watts, equals voltage multiplied by current. Thus, the fact that the voltage of solar panels is 48v allows them to produce more energy than 12v or 24v panels. The most powerful PV modules are rated at 48 volts.

Up to 8% cash back; Convert Sunlight into clean, renewable energy using 400-Watt portable solar panels, perfect for camping, RVs and home use. Our 400-Watt portable ...
