While the Dizaul power bank does contain a solar panel, it's really intended as a supplemental way to power the built-in 5000mAh lithium-ion battery. The manual says that it could take about 35 hours for solar charging alone. Since the week we tested this charger was particularly cloudy and rainy, it was difficult to get full sun for that long.

It also depends on the frequency of usage. However, for effective charging, you need to position the power bank in a safe and bright spot outside under direct sunlight, ensuring the panel faces the sun directly without any obstruction. The green LED light shows solar charging.

Power Up On-the-Go with the Just Wireless 5000mAh Magnetic Power Bank. Magnetic Wireless Charging. This power bank features a magnetic wireless charging pad compatible with MagSafe devices. 5,000mAh Capacity.
