

## Afe power intake systems

Stage 2 Si: aFe Power Original Sealed Intake System The Si cold air intakes feature a sealed housing and cover that keeps warm engine air out and allows for a cooler, fresher, denser air intake charge. The sealed airbox is also a great choice when noise is a concern. Each system is unique to the application with our exclusive air filter options ...

Large Five Layer Performance Air Filter: The aFe POWER Pro 5R air filters are pre-oiled and are 8" tall with 360-degree radial flow performance and five layers of progressively fine cotton gauze media for maximum airflow and protection. They provide your engine with the largest amount of high-flowing air, usually resulting in the highest power gains out of all our filter media options. ...

aFe Power Air Intake System 50-70036R. Customize \$ 434 99. Part # 50-70036R. SKU # 1044159. Check if this fits your vehicle. Select store for pickup availability . Home delivery unavailable. Add TO CART. aFe Power Engine Cold Air Intake 50-70061R. Customize \$ 426 99. Part # 50-70061R. SKU # 1289302.

Unique One-Piece Housing with Sight Window: A custom computer designed housing eliminates the use of multiple components. It's roto-molded and made from heat soak resistant cross-linked polyethylene, ensuring the coolest air intake charge possible. A clear sight window allows for filter inspection without removal of the airbox. The housing is designed to retain the same ...

The next generation of air intakes is here! aFe Momentum GT Pro 5R air intake systems use the most up-to-date engineering tools and techniques to provide you with the perfect blend of power and protection. Their one-piece sealed housing with an auxiliary air ...

Large Three Layer Performance Air Filter: This aFe POWER Pro DRY S is a 10-1/2" tall, dual inlet, 360-degree radial flow performance air filter that was custom made to fit directly behind the front grille. It features our oil-free air filter media, with three layers of progressively finer synthetic media for maximum convenience. It provides great filtration efficiency and dust holding ...

20-24 Power Stroke 6.7L ; 17-19 Power Stroke 6.7L ; 11-16 Power Stroke 6.7L ; 08-10 Power Stroke 6.4L ; 03-07 Power Stroke 6.0L ... Cold Air Intake Systems ; Intake Replacement Air Filters ; Dynamic Air Scoops ; Electronics ; Throttle Bodies ; Throttle Body Spacers ; Manifolds

It's impossible to determine the best-sounding cold air intake, as systems from aFe and K& N both use plastic tubes to eliminate the restrictive factory baffles for more power and sound. Both types of air intake systems also feature reusable cotton-gauze filters to maximize airflow.

To ensure customer satisfaction, AFE Power backs this Super Stock Induction System with a 2-year warranty against material or workmanship defects from the original retail sale date. Some exclusions for this warranty
