

Air climber power system funciona

Now you can get cardio, weight loss and tighter abs while you step on air with Brenda Dygraf's new Air Climber System. It is the only exercise equipment that has the power of air to help you work out. With its air powered technology, air flows from pedal to pedal, inflating the bellows and eliminating jarring impact to your joints.

Especificações do Air Climber Power System. Atividade aeróbica e muscular; Leve e compacto; 5 níveis de treino; Body Cord (corda para treinos diferenciados) Computador de treino; Suporta até 130kg; Air Climber Power System - Resultados!
