Most renewable energy investment flows will go to solar photovoltaic and wind in the key markets of China, Europe, and the US. However, there needs to be greater allocation to developing markets - Africa accounted for a mere 1% of new renewable energy capacity installations globally last year. The private sector has a major role to play.

Allianz Group is adapting its guidelines to pragmatically provide insurance and investment in renewable energy projects. The changes aim to support and speed up the transition of energy companies, particularly in Asia and Eastern Europe, where the adaptation from coal to renewables is difficult and less advanced than in Europe or the United States.

NeuConnect is an interconnector, a structure that enables electricity to flow between two separate power grids, and it is a remarkable project in many ways. It involves running undersea cables between Germany and the United Kingdom to create an invisible energy highway that, for the first time, provides a direct power link between two of Europe's largest ...

The European Investment Bank (EIB) and Allianz Global Investors (AllianzGI), one of the world's leading active investment managers, today launched the Emerging Market Climate Action strategy (EMCA) in a public-private partnership, with the Governments of Germany and Luxembourg, the Nordic Development Fund, Allianz, Folksam and EIB being anchor investors.

At the heart of it is the transition away from fossil fuels to renewable energy. This was again emphasized by the climate conference COP27 in Egypt, which stressed the importance to rapidly transform energy systems to be more secure, reliable, and resilient, including by accelerating clean and just transitions to renewable energy.
