

Arcadia power community solar reviews

This offer from Arcadia is probably complicated by the fact that we have fifty states, and each state has its own regulations for utilities. I'm in Illinois, and my local electric company, Ameren, is required by state law to cooperate with independent power companies that "assist" in providing electricity, and consumers can choose those companies if they want to (usually at a ...

At the beginning of April (the transaction posted on April 9th), I paid for one unit of Arcadia Power's Community Solar Program. The upfront cost was \$100 (although I paid with ...

What is community solar? Community solar is a way to support solar energy and save on your power bill without installing your own solar panels. Instead, you join a local solar farm. Your neighbors and area businesses can join, too. These solar farms are often built on unused land, but they can also be in people's backyards or on community ...

Community solar provides access to solar for residential electric customers who otherwise would not be able to install solar panels on their property. To date, though, community solar has not seen the same levels of adoption as residential rooftop solar. We conducted a Q& A with Arcadia Power to learn more about how their new community solar offering helps lower ...
