The fix is to have an battery to power your emergency call. That's why the ONT unit has a rather larger 12V 7AH battery in it. Alternatively -- you know since it's 2020 -- you could use a mobile phone, but your internet provider can't assume that and has to provide a backup.

The APC BR1500G Backup Battery is pretty large in terms of size. It has five battery backup and surge-protected outlets and another set of five outlets with only surge protection, for a total of ten. However, there are no USB ports to plug in your phone directly. There's also a small backlit LCD that shows plenty of information at a glance.
