China, with its burgeoning energy needs, is the world's leader in the use of solar hot water systems. That presence was felt at the 2005 Solar World Congress with a few solar hot water product offerings from the country. Among these were the evacuated solar thermal hot water heating systems from Beijing Sunda Solar Energy Technology. Each system includes a ...

Please check your solar collector according to the following list. In case there are still problems after the check or the energy output is not sufficient, please contact our service team. Does the collector have the correct orientation?

News: From March 7 to 10, 2019, Mr. Wang Jianwei, the president of China National Huachen Energy Holding Group(SUNDA's Group Corp.) and Ms. Li Wei, the president of Beijing Sunda Solar were invited to visit Malta to attend the business negotiation conference for Malta tops Europe's economic growth projections by the President of the Republic of Malt.

# Beijing sunda solar energy technology co

Beijing Sunda Solar Energy Technology Co., Ltd. is a worldwide leading manufacturer of evacuated tube solar collectors. Sunda was jointly founded by the DASA and SUNPU in 1995, based on two parties' research in the solar thermal field for over 10 years. Although it has very proud history, Sunda has been working hard on manufacturing and R& D excellence ever since.

Beijing Sunda Solar Energy Technology Co. Ltd. B5.rtf//07/14/97/Sheet 20 3. Back-up research on market, potential partner, budget, general requirements Time requirement: ca. 3 - 6 months Cost: China visit 1 week/person: ca. 10.000,- DM 4. Beijing Sunda Solar Energy Technology Co., Ltd. is a global manufacturer of evacuated tube solar collectors, owning a variety of patents and international certificates. Sunda's quality products are widely applied in water heating, solar air-conditioning, and even CSP.

Company Introduction: Beijing Sunda Solar Energy Technology Co., Ltd. is a worldwide leading manufacturer of evacuated tube solar collectors. Sunda was jointly founded by Beijing Sunpu Technology Co., Ltd. As the affiliate company of Beijing Solar Energy Research Institute and Daimler-Benz Aerospace (DASA) in 1995.

Manufacturer: Beijing Sunda Solar Energy Technology Co., Ltd No. 3 Huayan Road, Haidian District 100083 Beijing City People's Republic of China Type: Seido 2-16 Reference code of the TZSB: KT05\_02 Testing method: Complete test according to DIN EN 12975-1,2 "Thermal solar systems and components - Solar Collectors"

Beijing Sunda Solar Energy Technology has been developing solar thermal technology for 30 years. With technology from Germany, our evacuated tube solar collectors and heaters meet the quality expectations of the hot water, pools and spas, space heating, solar air-conditioning, and sea water desalination industries. We have over 10 international ...

Sunda's support site provides you with information on Sunda's agents, products and the website. We are providing the addresses of our distributors worldwide, also including your country or area, and how you can contact them. With the goal of easing the utilization of Sunda collectors, we have composed a list with Frequently Asked Questions.

When planning to design a solar water heating system the following data has to be known: The number of people and hot water consumption per person/year. The local solar irradiation and air temperature in months and hours of sunshine per year . The deviation from the north/south line to correct the orientation of the solar collector
