Firstly, consider the capacity and voltage of the battery. Golf cart batteries generally come in 6V, 8V, or 12V options, and the capacity is measured in amp-hours (Ah). The capacity will determine the battery's ability to provide power over time. A higher capacity battery will last longer on a single charge but may come with a higher price tag.

I personally prefer lithium golf cart batteries due to their numerous advantages. Unlike traditional lead-acid
