The best solution to ensure you won't have a dying battery while out and about is to pick up portable battery chargers or power banks. The best portable chargers for most users Anker 733 Power Bank

The heart of a solar power bank is its battery, and its capacity is a big deal. Measured in milliampere-hours (mAh), the rule is simple: the higher the mAh, the more charging power you have at your fingertips. Most top-notch solar power banks pack a punch with capacities ranging from 10,000 mAh to 25,000 mAh.

A portable solar battery charger is a great option if you're taking an extended camping trip or traveling somewhere with an unreliable power grid, as it'll allow you to charge a phone the size of an iPhone 15 using just a few hours of midday sun.

6. A Addtop Solar Charger Power Bank 25000mAh: Best compact solar power bank. Price when reviewed: \$51 | Check price at Amazon We would normally advise steering clear of solar power banks that have the solar panel built into the top of the unit, since the tiny panels struggle to consume enough energy to charge up the batteries. The A Addtop ...

Portable solar chargers are typically designed to fold for storage, making them easy to keep around in a bag, seat-back pocket or emergency kit while still providing a large enough surface area to capture sufficient solar energy to produce electricity. This all means a portable solar charger is an extremely valuable addition to your emergency kit.

Portable solar panels and solar battery chargers are easy-to-use devices that provide backup power to anyone who happens to be away from a working power outlet, including hikers, car campers, and even people looking to keep their devices running during a power outage at home.

Solar power banks and solar chargers are perfect for saving your power bills. They are eco-friendly and have no fumes. The units are useful for recharging your cell phones, cameras, and laptops. They come in handy during electricity outages. Their folding panels make them very portable.

Best portable solar power bank charger

Portable solar chargers are best used to power small electrical items, such as smartphones and portable battery packs. They can be perfect for topping up the batteries of devices you might take on a camping trip, but generally aren't much help when it comes to feeding more power-hungry products, such as televisions, portable fridges and kettles.

Both the panel and the unit have a carry handle for easy transportation. With a massive battery and the convenience of wireless charging, our top pick for a solar power bank is the QiSa solar charger. Or, if you need a complete unit to use in the home as a backup power source, we recommend Bluetti EB55 solar charging station.
