We look for solar companies with owners who understand that when they sell you a solar system, you expect them to be there for the next 25 years to fix any issues that may arise. Here are the top companies we recommend for solar in California: Best solar installers in California. Best solar companies for home battery installations in California

If you pay for your system with cash, you'll save about \$84,748 over 25 years (the warranty term of most solar panels) on electricity costs with a 5 kW system in Santee, CA. We generate this estimate based on real solar quote data from our Marketplace. It considers your system's cost, the federal tax credit, and inflation rates.

Even though solar panels need a big initial investment, you can cut your energy bills in the long term by making the switch. According to the U.S. Energy Information Administration (EIA), moving to solar energy allows Santee homeowners to save a yearly average of around \$920. The offerings from different solar technicians aren't all the same.
