The EcoFlow Delta 2 is a fantastically capable mid-range power station, which is able to drive all your power-hungry appliances. In our view it has more than enough power for any camping trip with an 1800W onboard inverter - meaty! The original Delta 1300 was crowd-funded by Ecoflow back in 2019 to great success, having an insanely fast charging capability via mains.

So, before you hit the road for your next camping or road trip, check out our roundup of the best solar panels for camping below. We share 7 of our recommended panels. Jackery Solar Saga 100. Goal Zero Nomad 10 Solar Panel. ... The Powertraveller Kestrel 40 Solar Panel features an integrated power bank that helps to charge smaller devices on ...

However, solar panels for camping are portable enough to pack in the trunk of your car, truck, or van. They also usually include some way to carry them from your car to wherever you build your solar charging station. Still, they're definitely heavier than you'd want to carry for long distances.

But if you're really intent on having backup solar for your power bank, then a smart option is to purchase a separate solar panel to pair with your power bank. Then, you can use the solar panel itself as shade for your power bank as it charges, helping to extend its battery life.
