

Bose solo tv sound system not working

Some users may think that their Bose soundbar isn't working, whereas, in truth, it might just be a case of low volume levels. In this case, your soundbar may be functioning perfectly, but because the volume levels are low, ...

Some users may think that their Bose soundbar isn't working, whereas, in truth, it might just be a case of low volume levels. In this case, your soundbar may be functioning perfectly, but because the volume levels are low, you are unable to hear the sound. ... particularly if you have more than one Bose system, or other devices sharing a ...

Among Bose sound systems is the Bose Solo 5 Sound Bar, which is designed to provide TV users with better sound quality than what their TV can produce alone. The Bose Solo 5 Sound Bar also comes with a remote control that can control linked Blu-ray players, gaming systems, etc.

June 4, 2014 our BOSE solo TV sound system quit working suddenly. I read the other comments on this forum and found that the advice to disconnect the unit from power for 5 minutes actually worked! We are pleased as we can be. Our unit is not even one year old yet. So if your BOSE suddenly quits, try unplugging it for 5 minutes so it will reset ...

You should also make sure there aren't any conflicting signals causing your Bose remotes or sound system not to work. These signals can come from microwaves, LAN networks (often used for gaming), or Bluetooth devices. ... a sound system, or a TV screen. If the automatic connection worked, by clicking on one of the sources, all the buttons ...

Customer: The sound suddenly stopped. The Bose solo 5 TV sound system is not working at all - no light, no sound. We checked the plug, changed the batteries, checked where it goes into the TV - nothing. Technician's Assistant: Are there any lights on your sound system that are lit or blinking? Customer: No, not on the Bose sound.

The Bose Solo 5 Sound Bar also comes with a remote control that can control linked Blu-ray players, gaming systems, etc. The Bose Solo 5 Sound Bar was praised for being well-built and having good sound quality, especially for the speaker's size. On the other hand, it was criticized for having a lack of connectivity options and poor bass.

While the Solo 15 Series II system shares many features and benefits with the original Bose® Solo 15 TV Sound System--including a dedicated centre speaker for improved intelligibility, driver placement for improved spaciousness, bass that adds impact to your shows, one-connection convenience, advanced digital signal processing including TrueSpace® technology, the ability ...
