Refine your pizza prep process with our "RD" Series Refrigerated Dough Retarder Cabinet, the ultimate solution for enhancing dough consistency and flavor. This innovative cabinet is expertly designed for 18"x26" dough boxes, offering precise temperature control (33°F - 70°F) to slow yeast fermentation and develop deeper flavors.

Producing pizza dough that can be stored in the cooler and produce essentially the same quality product from days one through three is where the challenge lies. The key here is to control the finished (mixed) dough temperature to 80 F to 85 F, then take the dough directly to the bench for scaling and rounding (balling).

The sturdy pine wood handle is comfortable to hold, but the best part is that it can be folded down for easy storage in a cabinet or drawer. The aluminum blade easily slides underneath unbaked dough.

The Huot Model 525 Super Cabinet stores thousands of drill bits, reamers, taps, small parts or anything else you can imagine. With fifteen 2" tall drawers you get over 15,000 cubic inches of storage space! Each drawer rests on full extension ball ...

Knowledge of Weight Capacity: Cabinet installation experts have an in-depth understanding of weight capacity and can accurately determine how much weight a specific cabinet can hold. They take into account factors such as the cabinet material, construction, fasteners, and supports to ensure that the cabinets are sturdy and can handle the load.
