The backup battery in a UPS allows you to save/back up your data and shut down your sensitive electronic devices safely and/or avoid downtime altogether. For instance, the power capacity of the backup battery can buy you enough time to spin up power generators or supply power long enough until AC power is restored.

The Back-UPS Pro family offers guaranteed power protection for high performance computer systems, routers/modems, external storage devices, game consoles and other electronics in your home or business. These UPSs supply electronics with abundant battery backup during outages and stabilize unsafe voltage levels.

Battery backup devices have varying degrees of backup ability. To determine how powerful a UPS you need, first, use the OuterVision Power Supply Calculator to calculate your computer's wattage requirements. Take this number and add it to the wattage requirements for other devices you'll plug into the battery backup.
