Hi All. I'm installing solar/lithium into my 2014 Reflection 293RES fifth wheel. As I replace the old batteries with the lithium I'm moving them from the front compartment (where they could be vented) to the environmentally controlled pass through storage area to keep them cool. This leaves behind two small BUS in the front

Description. A Battery Combiner Box is like a big, safe meeting spot for electric wires. It joins the power from many solar panels into one main feed. All those cables and wires take up a lot of space, but a combiner box makes everything neat and tidy.. Just like how you store your toys in a toy box, we put these power wires in a battery combiner box to keep them safe and out of the ...
