2 days ago; When regulators allowed Duke Energy to lower bill credits to homes with rooftop solar, critics warned the solar industry would suffer a major loss. A year after the new rates ...

Today, nearly 5% of U.S. electricity comes from solar generation, almost 11 times as much as a decade ago. In 2022, Duke Energy and its subsidiaries had 180 utility-scale solar projects in 16 states and can generate more than 10,000 megawatts of electricity from wind and solar. Think you know solar now? Why not take our Solar Quiz!

Duke Energy is executing an aggressive clean energy transition to achieve its goals of net-zero methane emissions from its natural gas business and at least a 50% carbon reduction from electric generation by 2030 and net-zero ...

Green Source Advantage - Will allow large customers to secure solar power to offset the amount of power purchased from Duke Energy. This is an expanded version of a pilot program Duke Energy Carolinas provided. Duke Energy. Headquartered in Charlotte, N.C., Duke Energy is one of the largest energy holding companies in the United States. Its ...

Max participation caps for PowerPair are mandated by the North Carolina Utilities Commission and are limited to no greater than 30,000 kW-AC for Solar Panels in both Duke Energy Carolinas and Duke Energy Progress. Participation will be subject to availability of the Net Metering Bridge Rider NMB and the Residential Solar Choice Rider RSC.

Instead of a flat rate, Duke customers with solar will shift to a time-of-usage system, which compensates them for excess energy the panels produce based on the cost of energy at the time it's produced. The timing for customers shifting to that system depends on when they installed their solar.

You can actually increase those savings by opting into PowerPair + EnergyWise Battery Control. In this part of the program, solar and battery owners will allow Duke Energy to remotely control their battery up to 36 times per year, with a minimum of 30 events, in exchange for a monthly bill credit, estimated at \$30-40 per month.

To get a Shared Solar project started, there are three critical partners needed: a solar developer, a community organizer and Duke Energy. If you are a solar developer with a potential project for the program or a customer who would like to help organize a community solar project, please reach out to us at [NCSHaredSolar@duke-energy](mailto:NCSHaredSolar@duke-energy) .

Customers could receive up to \$9,000 as a one-time incentive to help lower the cost of installing solar and battery storage Programs explore new ways to help manage low carbon grids of the future Duke Energy (NYSE: DUK) is implementing PowerPair SM, a new incentive-based pilot program for installing home solar generation with battery energy storage in its ...
