Founded in 1999, First Solar is a leading American solar technology company and global provider of responsibly produced eco-efficient solar modules advancing the fight against climate change. The company is unique among the world's ten largest solar manufacturers for being the only US-headquartered company and not manufacturing in China.

"Solar helps customers reduce and stabilize their escalating electricity bills while making a positive impact on the planet. With more consumers transitioning toward full home electrification, and new incentives to support that transition, the solar value proposition is more compelling than it's ever been," said Peter Faricy, SunPower CEO.
