

# Energy storage business divestiture

Many people see affordable storage as the missing link between intermittent renewable power, such as solar and wind, and 24/7 reliability. Utilities are intrigued by the potential for storage to meet other needs such as relieving congestion and smoothing out the variations in power that occur independent of renewable-energy generation.

Sector Industry Market Cap Revenue; Utilities: Utility - Electric Power Distribution: \$51.117B: \$14.393B: Dominion Energy together with its subsidiaries produces and transports energy in the United States.

Enel X's software optimizes projects that include the use of solar energy, fuel cells and energy storage. Regardless of whether you already have such systems up and running in your facility or are interested in integrating them with a battery storage system, customers can choose from among different Enel X storage business models that ensure all their energy needs are met.

Cushing Crude Oil Storage - An ETA member performed a pre-engineering design review of a large crude oil storage facility expansion in Cushing, Oklahoma.
