The Stored Energy welding power supply - commonly called a Capacitive Discharge Welder or CD Welder - extracts energy from the power line over a period of time and stores it in welding capacitors. Thus, the effective weld energy is independent of line voltage fluctuations. This stored energy is rapidly discharged through a pulse transformer producing a flow of electrical current ...

Our Energy Storage Welding Machine offers exceptional quality within the Spot Welder category. To ensure the quality of spot welders sourced from China, conduct thorough research on potential suppliers. Look for certifications, testimonials, and product specifications. Requesting samples and visiting the manufacturer's facility can also give you ...
