

Gate opener with solar panel

This solar swing gate opener is an excellent choice for all gate types, like a chain link, wood, vinyl, ornamental, panel, or tube gate that measures 16-feet long and weighs 550 pounds. Automatic gate openers like this are a great solution to consider for homeowners who find it annoying to get off their cars to open or close the gate.

Comes with the 20W solar panels, this gate opener is a great choice if you have no access to power out at the gate or are rethinking your energy. Connect the solar panels easily to the control box to maximize the recharging potential as needed. The 24V 12Ah automotive / marine type battery is Required but NOT Incl.

How many watts does a solar panel for a gate opener need to be? Since we're talking a fairly low power need, you should be fine with a 10-watt panel or thereabouts. Anything more - like a 100-watt panel - would be unnecessary and a bit of an overkill. Gate openers don't use a ton of power, so the battery just needs to be charged and ...

Both openers work with the Chevy MyLink buttons in our vehicles. The upshot: If you don't plan to use a solar panel, this will likely work great. If you want a solar-powered gate opener, you might prefer the more expensive heavy-duty opener with the kit (plus separate solar panel) that can accommodate all the parts.
