I wanted to do a post on one of the most popular subjects in the alternative energy arena....The Harbor Freight 45 Watt Solar Panel Kit. It only makes sense that this kit gets so much attention, it's inexpensive! ... For Under \$200! Harbor Freight 45 Watt Solar Panel Kit; DIY - Making a Wind Power Generator; DIY - Make Your Own Solar Panel ...

The solar panel will have a 25 year warranty instead of the 1 year on the harbor freight panels. It costs a lot more money up front, but it is 4 times bigger. If you multiply the price of the Harbor Freight kit times 4 to make it the same size, it costs around \$600 for 195 watts. That means it cost much more and you get lower quality components.

Find great deals on a wide selection of outdoor living products at Harbor Freight. We have everything you need from lighting and heaters to solar panels and much more. Harbor Freight offers a wide array of decorative LED lights, gazebos, car storage shed kits, as well as DIY camping equipment. TYPES OF OUTDOOR LIVING PRODUCTS

Why are they so expensive? \$200 for a 30 watt panel seems crazy when you can get an entire 100 watt solar kit from harbor freight for like \$160. so 30 watts at \$49 comes to \$1.63/watt = still not a good price.

Harbor Freight buys their top quality tools from the same factories that supply our competitors. We cut out the middleman and pass the savings to you! ... \$200 - \$300 (2) \$300 - \$400 (2) \$400 - \$500 (3) \$500 And Up (14)

You need a standard 90 to 120 watt panel, mounted on the shed roof or a piece of 2" pipe set in concrete, a solar controller and a deep cycle battery. Add all the 12v lights you ...

I purchased a Qukitel 614 watt power station. I tried to connect it to a Harbor Freight 100 watt Thunderbolt solar panel with no success. I returned the solar panel today. The power station does not have a separate D.C. input port that I can tell so I tried to charge it through the port that I plug it into to charge it with the A.C. Charger.

We decided to use a very basic \$189 solar kit from Harbor Freight to explain the basics of solar, and it is also a really cheap place to start. What stops people from getting into solar is a complete confusion over the ...
