

Hawe energy solutions

HAWE Energy Solutions is focused on the renewable energy sector. In addition to our hydraulic system solutions for wind turbine OEMs we offer engineering services, spare parts and retrofit solutions, tailored to your wind turbine type and geographical location. Top of page.

HAWE Hydraulik - Solutions for a World under Pressure HAWE Hydraulik is a mid-sized, internationally active family business headquartered in Munich/Germany. 23 subsidiary companies in Europe, North America and Asia offer a global sales, service and ...

In the future, local customers will receive customized solutions from the extensive modular system of HAWE Hydraulik and its partners. This includes hydraulic solutions as well as electronic controls and solutions for the electrification of mobile machines.

Wind energy is the energy of the future for meeting climate targets. Benefit specifically from the power of nature. With HAWE Hydraulik - your competent partner for modern, efficient and durable hydraulic solutions in all areas of the wind power industry.

Turbines and generators in hydroelectric plants should be able to convert up to 90% of flowing water's kinetic energy into electricity. HAWE Hydraulik's reliable and durable hydraulic components help you achieve this level of efficiency and maintain it over the long-term.

HAWE Energy Solutions General Information Description. Manufacturer of hydraulic components and systems intended for companies in wind, energy, marine, mobile machines and manufacturing.

HAWE Hydraulik makes a contribution to resolving global problems regarding energy, infrastructure, efficient production, nutrition and nature as well as resources. Search for your application and learn more about the industry-specific hydraulic solutions from HAWE Hydraulik.
