

# Infocast energy storage finance

The third annual Infocast Solar + Wind Finance Investment Summit was held in Scottsdale, AZ from March 10 to 13. The conference attracted a record number of attendees with 3,200 tickets sold. There was much discussion of the various proposed energy tax credit rules that have been released since the last conference.

Our world has a storage problem. As the technology for generating renewable energy has advanced at breakneck pace - almost tripling globally between 2011 and 2022 - one thing has become clear: our ability to tap into renewable power has outstripped our ability to store it.. Storage is indispensable to the green energy revolution.

GridStor VP of M& A Jack Murray recently spoke at Infocast's Energy Storage Finance & Investment Summit. His takeaways: ERCOT is now a buyer's market given project supply and growing buyer greenfielding capabilities; CAISO continues to be a seller's market for mature projects; rising development costs and timelines will lead to some re-balancing in risk ...
