

The JFY solar inverter saga continues, with latest testing performed by the Clean Energy Council at the manufacturer's request resulting in another failure. ... The CEC's Product Listing Review Panel denied the appeal, stating this was due to the inverters being imported into Australia without instructions to installers that they must re ...

In order to be eligible for Australia's major solar subsidy, solar panels and inverters used in installations must be included on the relevant Approved Products List. The CEC denying JFY's appeal will send an even clearer signal to solar panel/inverter manufacturers and importers that delisting under such circumstances is a serious issue ...
