

Kion battery systems

The joint venture, known as Kion Battery Systems (KBS), is expected to employ some 150 workers by 2023, operating at a 43,000 square foot plant in Karlstein am Main, Germany, about 25 miles east of Frankfurt.

The objective of the joint venture is to extend the lithium-ion product range of the KION Group's brand companies and to expand production capacity in order to meet the rapidly ...

In 2022, KION Battery Systems GmbH launched a second production line for lithium-ion batteries that will be used to power mobile warehouse trucks. At the same time, the KION Group's brand companies broadened the use of lithium-ion batteries to include additional load ranges and applications. Through a minority stake in software specialist ...

For the joint venture KION Battery Systems GmbH, 2021 was the first full year of manufacturing lithium-ion batteries for the KION Group's industrial trucks. It also extended the range of production series to supply batteries for a greater number of trucks and power classes. In parallel, further improvements were made to the performance and ...

The KION Group produces its own lithium-ion batteries at the KION Battery Systems plant in Karlstein am Main. These are then installed in the electric-powered industrial trucks of the KION brand companies Linde MH, Fenwick, STILL, and Baoli, as well as in automated warehouse logistics systems. "Together with Li-Cycle, we are now closing the ...

2020-12-01 / 08:31:22. KION Battery Systems starts production of lithium-ion batteries. - New joint venture between KION GROUP AG and BMZ Holding GmbH commences operations. - ...

- KION and BMZ will each hold a 50 percent stake in the joint venture: KION Battery Systems - Plans include a new production facility at BMZ's Karlstein headquarters. Frankfurt, 11 July 2019 - KION GROUP AG takes another major step forward on its growth and innovation path. The leading global provider of intralogistics solutions will join ...

The global intralogistics group and the manufacturer of lithium-ion system solutions set up KION Battery Systems in summer 2019 to produce lithium-ion batteries for industrial trucks. KBS's objective is to sustainably expand its lithium-ion product offering and production capacities for the EMEA region.

In 2019 KION Group and BMZ Holding GmbH entered into a strategic partnership that focused on the creation of their production facility in Karlstein am Main. The joint venture, KION Battery Systems (KBS), is being ...
