The Lebanese Center for Energy Conservation (LCEC) is the national energy agency for Lebanon. LCEC is a not-for-profit organization within the Lebanese Ministry of Energy and Water (MEW) with a financially and administratively independent statute.

Energy intensity can therefore be a useful metric to monitor. Energy intensity measures the amount of energy consumed per unit of gross domestic product. It effectively measures how efficiently a country uses energy to produce a given amount of economic output. A lower energy intensity means it needs less energy per unit of GDP.
