

BEIRUT -- Lebanon's two main power plants were forced to shut down after running out of fuel, the state electricity company said Saturday, leaving the small country with no government-produced power.

The Gambit Energy Storage Park is an 81-unit, 100 MW system that provides the grid with renewable energy storage and greater outage protection during severe weather. Homer Electric installed a 37-unit, 46 MW system to increase renewable energy capacity along Alaska's rural Kenai Peninsula, reducing reliance on gas turbines and helping to ...

Electricity was first introduced in Lebanon in the early 20th century, primarily to power the capital's tramways. The Compagnie des Tramsways et de l'Electricit  de Beyrouth, founded in 1906, was the first to manage the electricity needs of Beirut. In 1923, this company merged with the Compagnie du Gaz et de l'Eclairage de Beyrouth, originally established in 1895, forming the ...

Intelligent Power Solutions Co. is a top decarbonization provider in Lebanon, offering clean energy solutions and end-to-end services. Our portfolio includes 3MWs of clean energy capacity, with a focus on inclusive solutions in green hydrogen, storage, and carbon markets.

Global PV inverter manufacturer and energy storage solutions provider Sungrow will supply equipment including battery storage to eight solar microgrid projects in Lebanon. Sungrow has signed deals with undisclosed local partners for what will be the first utility-scale microgrids to be built in the Middle Eastern country, it said yesterday.
