

My energy storage in sophomore year

Junior Year: You have a life outside of school, and sometimes that life can affect your focus in school. In my junior year, I had a few personal things happen to me (I was eating Ben & Jerry's from the tub and bingeing rom coms, if that sounds familiar) and suddenly, I could no longer find the energy to go to class or finish my assignments.

29. Try not to overanalyze social interactions. Your first impression of a person's intentions or mood is probably the most accurate. 30. People get annoyed when you are never tired, so sometimes you have to hid it. Your energy and perkiness are not appreciated on Monday mornings. 31. You will have a lot of energy to try and better yourself.

Sophomore year is fertile territory for self-discovery and career planning. Most students have settled into college life and are finally dipping into a major-specific curriculum. ... Career centers often focus a lot of energy on getting first-year students in the door of the career center or, at the very least, prodding them to explore careers ...
