electricity usage.

My favorite piece of solar camping gear is a solar lantern. While some solar camping lanterns are larger, wired together like Christmas lights, and generally designed for car camping or outdoor lighting, even in your backyard, my favorite solar lantern is the Luci: an inflatable solar light. The charge on the Luci is great, with a single sunny afternoon able to power its light for multiple ...

Outdoor power supply is a multi-functional power supply with built-in lithium ion battery and can store electric energy, also known as portable energy storage power supply. The outdoor power supply is equivalent to a small portable charging station with light weight, large capacity, high power, long service life and strong stability.

Offering plenty of power and ports in a compact package, the Jackery Explorer 1000 is the best portable power station for emergency backup power or outdoor activities such as camping and...

The answer to this depends largely on what you intended to do with it. If all you want is backup power for your family's phones while camping over the weekend, you can get away with something relatively small -- 200 watt hours would be more than enough.
