Peoria il solar power companies

The cost of home solar panels in East Peoria will depend on several factors, including the size of the system and the type of solar technology being used. Generally speaking, a complete solar energy system will cost \$3,760 per kilowatt, not including labor, preliminary work, or permit fees.

3 days ago; For the month of November, 2024, the cost per watt for solar systems in Peoria, IL is \$4.01/W. Expect to pay \$4,010, on average, for every 1000 watts (or 1 kW) of solar energy your system can generate.

These prices do not include the federal ITC or Illinois state incentives, which will lower the cost by at least a few thousand dollars. Larger solar panel systems cost more money, so doubling the system size effectively doubles the price.. If you pay for your system with cash, you'll save about \$44,600 over 20 years on electricity costs with a 5 kW system in Illinois.
