The PV field is diverse in its science base ranging from semiconductor and PV device physics to optics and the materials sciences. The journal publishes articles that connect this science base to PV science and technology. The intent is to publish original research results that are of primary interest to the photovoltaic specialist.

Our key criterion is that the papers we publish reflect substantial advancement in the field of photovoltaics. True to the journal's title, the key criterion is that submitted papers should report substantial "progress" in photovoltaics. The full Aims and Scope of Progress in Photovoltaics can be found on the Overview page.

PVTIME - Renewable energy capacity additions reached a significant milestone in 2023, with an increase of almost 50% to nearly 510GW, mainly contributed by solar PV manufacturers around the world.. On June 11-12 2024, the CPC 9th Century Photovoltaic Conference and PVBL 12th Global Photovoltaic Brand Rankings Announcement Ceremony ...

China's determined rise in academics and research makes its perspective on journal significance a matter of global interest. There are two widely accepted journal ranking systems in China: The Journal Citation Reports system (JCR) of Clarivate Analytics, which is the mainstream system worldwide, 1 and the Chinese Academy of Science system (CAS), tailored for China's ...

Solar cell researchers at NREL and elsewhere are also pursuing many new photovoltaic technologies--such as solar cells made from organic materials, quantum dots, and hybrid organic-inorganic materials (also known as perovskites). These next-generation technologies may offer lower costs, greater ease of manufacture, or other benefits.

On June 10, the "2022 global photovoltaic top 20 ranking" initiated and held by 365 photovoltaic, 365 energy storage and smart energy was officially released to the world in the form of online broadcast. With its outstanding performance in the global market, Chint power has been listed as the fifth of the top 15 photovoltaic inverter listed enterprises in China in 2022, which has been ...
