A solar inverter is really a converter, though the rules of physics say otherwise. A solar power inverter converts or inverts the direct current (DC) energy produced by a solar panel into Alternate Current (AC.) Most homes use AC rather than DC energy. DC energy is not safe to use in homes. If you run Direct Current (DC) directly to the house ...

However, the Giandel 2000W is among the most compact pure sine wave inverters on my list so you can easily take one camping and use it with portable solar panels. With this in mind, this 2,000-watt pure sine wave inverter would be a prime candidate for a DIY solar generator project.
