

Renewable energy company nj

If awarded, the Garden State Energy Path would be in operation by early 2029, ready for use by selected New Jersey offshore wind farms. About National Grid Ventures. National Grid Ventures (NGV) is the non-regulated division of National Grid plc, one of the largest investor-owned energy companies in the world.

Clean energy is vital for our future from both an economic development and environmental sustainability policy perspective. With this in mind, on January 27, 2020, Governor Murphy unveiled the state's Energy Master Plan, which outlines key strategies to reach the Administration's goal of 100 percent clean energy by 2050.

In 2020 the New Jersey Board of Public Utilities (NJBPU) approved the final New Jersey Offshore Wind Strategic Plan, the State's comprehensive roadmap for achieving 7,500 megawatts (MW) of offshore wind energy by 2035. The plan was developed by Ramboll U.S. Corporation through an extensive public stakeholder process.

The Clean Energy Act updated and accelerated the solar requirement to 5.1%, which the state attained in April 2020. That milestone triggered the closure of the Solar Renewable Energy Credit (SREC) program, the primary incentivization vehicle for solar in New Jersey for over a decade, to new applications. COMMUNITY SOLAR
