

## Rich road solar energy center

Rich Road would produce up to 240 megawatts of solar energy and include a 24-megawatt battery storage facility. In all, it would generate enough energy to power about 61,400 homes, EDF says.

If you have questions, comments or any interest in the Project, please contact us at any time. Jonathan Geldard, Project Developer Grid Scale Power - NY EDF Renewables Development, Inc. 15445 Innovation Drive San Diego, CA 92128 Phone: 1.833.333.7369 Email: NewYorkSolar@edf-re Office of Renewable Energy Siting Empire State Plaza 240 State Street P-1 South, J ...

The application was lodged last week by project vehicle Rich Road Solar Energy Center LLC, shown an official filing with the New York Office of Renewable Energy Siting (ORES). The Rich Road photovoltaic (PV) farm is planned to be built in the Town of Canton, St Lawrence County, covering around 1,700 acres (4,200 ha) of land. Once in operation ...

EDF Renewables, an international renewable energy company, wants to construct a huge 240-megawatt solar energy center along the Rich Road. On July 13, Jack Honor, development manager EDF Renewables, made a presentation to the Canton Town Board. "We will have about 10 people from our team in attendance" at the July 22 event, said Honor.

CANTON -- The Canton town and village boards would like the public to be aware and encourage attendance of the public comment hearing of the Rich Road Solar Energy Center, LLC c/o EDF Renewables Development Project on Tuesday, May 7, at 6 p.m. at the Best Western University Inn's Laurentian Room.

EDF Renewables, an international renewable energy company, has secured leases with private landowners on about 1400 acres and wants to sign similar agreements on 800 more for the Rich Road Solar Energy Center. The property owners will be paid annual lease payments for use of the land.

The New York State Office of Renewable Energy Siting and Electric Transmission (ORES) has issued final siting permits for the Rich Road Solar Energy Center and Prattsburgh Wind projects, located ...

CANTON - Members of the town board were updated Tuesday night on the construction of a \$300 million, 240 megawatt solar energy center just west of the village on the Rich Road. Jack Honor, development manager EDF Renewables, delivered a presentation on New York state's first solar farm of this size for EDF.

The sites are the Rich Road Solar Energy Center, in the town of Canton, in St. Lawrence County, and Prattsburgh Wind LLC, in Steuben County. The Rich Road project, a 240 MW solar farm supplemented with an additional 20 MW battery energy storage, is estimated it would generate clean energy capable of powering more than 61,000 average-sized homes ...

CANTON - State officials have issued a final siting permit for a solar project slated to be built on Rich Road

# Rich road solar energy center

in the Town of Canton. The Office of Renewable Energy Siting ...

The application will be seeking a Siting Permit from ORES authorizing the construction and operation of the Rich Road Solar Energy Center, a solar electric generating facility up to 240 megawatts in capacity along with 20 megawatts of battery energy storage. ... The Rich Road solar project includes acreage along U.S. Route 11, Old Dekalb Rd ...

The Rich Road Solar Project is a 94-c Application (State Project) Major Renewable Energy Development (the "94-c Process"), which is intended to establish an expedited review process with uniform permit standards for New York State renewable energy projects in place of the procedures set forth in Article 10 of the Public Service Law ...
