To charge the remote with solar energy, simply set the TV remote down with the solar panel facing up. You can do this in your living room while your lights are turned on, or you can place it near a window where it will soak in ...

We can of course carry on with the old remote, but it mildly annoys me that a \$7k TV doesn't work properly with the supplied remote. Also the new solar remote was supposedly a "feature", one that we now won't benefit from. Will most likely raise it again with Samsung, but wondered if others are seeing any issues with this specific remote model.

Try using a USB type-c charger and charge it to full. Next resync the remote Next, press and hold the Return and Play/Pause buttons simultaneously for at least 3 seconds. Your TV will begin syncing with the Smart Remote. It hopefully now will last you for months like mine does.
