BPL Chairman Donovan Moxey was quoted in a Tribune Business news report. The Bahamas is a very difficult place to generate electricity, distribute it and sell it, even as compared to other Caribbean islands, Chris Burgess, Islands Energy Program projects director, told Solar Magazine.

Our Commitment to Sustainable Energy. At Bahamas Power and Light Company Ltd., we believe in a future powered by sustainable energy. We are committed to harnessing the potential of our natural resources to provide you, our valued customers, with not just reliable energy but a cleaner and greener future.

While BPL's solar ambitions would cover 10 percent of Family Island demand by 2023, it would still leave The Bahamas some way short of the National Energy Policy's goal of generating 30 percent of ...

The Government's National Energy Policy (NEP) is on track to expand its solar energy capacity to 30% of total energy production by 2033. This goal is supported by the Inter-American Development Bank (IDB) and the Bahamas Development Bank (BDB). Currently, solar power makes up less than 1% of all energy generated in The Bahamas.

On a kilowatt-hour (kWh) by kilowatt-hour basis, solar's your best, but you need to add battery energy storage capacity in order to reach higher levels of penetration," he noted. "Nassau's [the Bahamas' largest city] is a pretty big grid, and it can take a fair bit of solar without storage," Burgess continued.

Solar Energy in The Bahamas Development and Progress . The Bahamas has an abundance of sun and can take advantage of this with solar energy in an attempt to make it a cleaner country. Over the past few years, the government of the Bahamas has taken the global environmental crisis more seriously and decreasing the country's carbon footprint. ...
