Lake Lite, Inc. is the solar lighting industry's most innovative business offering quality solar marine lighting and boat lift solar systems for fresh and salt water environments. Lake Lite focuses on dock, deck, post, piling and safety marine solar lights but also specialize in solar panels, battery trays and solar mounting kits for boat lifts.

When planning a solar charging set up for your boat lift there are a few things that you should know. ... Solar panels in the 20 Watt range do not necessarily need a regulator as the amount of work the panel will have to do to keep a 24v system fully charged is unlikely to lead to a situation in which the batteries get overcharged.

* MC4 Connector - A water proof connector used in solar wiring. Most solar panels come with MC4 connectors attached to 3 foot solar wire pigtail coming from the panel junction box. These connectors are easily disconnected. * Solar Controller - Except for small trickle charge systems, all solar systems should have a solar controller. The purpose ...
