What solar panel for Tactacam Reveal 08-12-2021, 10:29 AM. I have two reveals out in the field and one gets more action than the other. The one with all the action goes through batteries in less than a month so it seems like a solar panel setup is a must. There isn't a lot of guidance regarding this in the manual and website. ...

Tactacam's REVEAL SK is a top pick for "set it and forget it" observation needs. SK provides an integrated solar panel with companion lithium battery to continually recharge without battery waste or trips to the field.

The Reveal SK by Tactacam is the most expensive cellular trail camera that Reveal currently offers but the price is higher for a reason. The built-in solar panel that comes with the camera is designed to keep the camera running all year long without the need of replacing the batteries as long as the solar panel receives adequate sunlight.

If your battery report doesn't come back up to 100%, do not be alarmed. The best practice is to place the solar panel facing south, and the camera facing north. This will allow for the most direct sunlight to the solar panel without having sunlight glare and shadows causing false triggers. Some tips: The SK solar panel does NOT
