Premium Backup Camera. The camera that is included with your Subaru IMPREZA Backup Camera System is an HD Universal, flush-mount camera, designed for compatibility with any vehicle. Equipped with a wide-angle lens, it delivers an expansive 155-degree field of view directly behind your vehicle, significantly enhancing visibility and safety.

I recently installed a Rigid Supply Wheel Carrier on my 2016 Forester and it partially blocks the view of my backup camera. Does anyone have suggestions for moving the factory camera? I wanted to know if Subaru sells and extension style wiring harness for the backup camera. I would prefer to stick with factory verses going into aftermarket.

Help reverse camera Looking to hook up my android head unit and retain the backup camera. I have the 2017 wrx with the 28 pin harness and my aftermarket head unit has a RCA cable that gets the video feed from the ...

I did this on my 2015 XT with a Pioneer 4200NEX head unit, but this method works on pretty much any car with a factory backup camera on a separate screen. If the factory camera is part of the radio screen itself it can still be done with this same method, you'll just need to send power to the camera.

Mike, Haven't got it installed and working yet. Need to find out why plug was dead in quarter panel. Need to access dealer diagnostic menu in radio to turn the camera option on, and if that doesn't do it, I'll have to pull the radio and link the number 8 and 12 wires to activate the camera (hoping that is not necessary).

Master Tailgaters Replacement Subaru Legacy Backup Camera (2015-2018) OE Part # 86267AL01A Replaces Model Number: 86267AL01A For use with: Subaru Legacy (Years 2015-2018) This is an aftermarket backup camera, not OEM.
