

Sunpower half of 2018 bookings will include energy storage

As with many other home battery products, the SunPower SunVault is sized for day-to-day use at your home and is primarily designed to be paired with a solar panel system. When your solar panels produce more electricity than you can use in your home, you can store the excess electricity in the battery system instead of sending it back into the grid.

1 Information about SunPower's use of non-GAAP financial information, including a reconciliation to U.S. GAAP, is provided under "Use of Non-GAAP Financial Measures" below. 2 Excludes polysilicon costs related to its above market polysilicon contracts. 3 The company adopted the new revenue recognition standard effective January 1, 2018.
