Hithium has announced a new 5 MegaWatt hours (MWh) container product using the standard 20-foot container structure. The more compact second generation (ESS 2.0), higher-capacity energy storage system will come pre-installed and ready to connect. It will be outfitted with 48 battery modules based on the manufacturer's new 314 Ah LFP cells, each ...

Used 20 foot containers have been retired from international shipping after an average of 15-20 years at sea. While they can no longer be stacked for shipping, they make for an excellent storage solution on land -- a much cheaper alternative to renting a storage unit or building a garage/shed. 20ft used containers will show clear evidence of their many ocean journeys.
