

We energies solar now program

The program would also allow an unlimited amount of new load to be served with renewable energy through this program. The second program, called Solar Now, would enable We Energies to lease roof or ground space from customers. We Energies would own the solar projects, and pay lease payments to the host customers.

MILWAUKEE -- We Energies filed plans with the Public Service Commission of Wisconsin this month to build five new large-scale renewable energy projects. In total, the projects would add 500 megawatts (MW) of new solar power and 180 MW of wind power to the grid. That is enough energy to power about 250,000 homes. The ...
