Bank Windhoek Limited, ... Non-energy Green House Gas Emission Reduction. Social Infrastructure (Health and Education) Reducing Inequalities. Responsible Consumption and Production. Affordable Housing. Improved Access to Funding for Small & Medium Enterprises and Micro Businesses.

A total of 311 applications were received for clean energy or decarbonisation projects after the call for submissions opened last summer. Of these, seven were selected to receive direct funding from a EUR1.1 billion budget and include hydrogen, carbon capture and storage, advanced solar cell manufacturing and other technologies.

The funded renewable energy projects are expected to generate 77,9 million kWh of electricity in the next five years and reduce 305 710 tonnes of carbon dioxide-equivalent greenhouse gasses in the next 25 years. This was revealed by a Bank Windhoek assessment in the Green Bond Impact Report released a week ago.

If agreed upon, the facilities will replace UTMC's current Standard Bank Namibia banking facilities of N\$111.3 million, with Bank Windhoek set to provide all main transactional banking services to UTMC in Namibia.

Andrada Mining Limited (Andrada) on Tuesday announced the successful completion of an N\$175 million funding agreement with Bank Windhoek Limited. The deal replaces the company's existing lending facilities and underpins its growth strategy. In March 2024, Andrada Mining's subsidiary, Uis Tin Mining Company Pty Limited (UTMC), entered into ...

Energy intensity can therefore be a useful metric to monitor. Energy intensity measures the amount of energy consumed per unit of gross domestic product. It effectively measures how efficiently a country uses energy to produce a given amount of economic output. A lower energy intensity means it needs less energy per unit of

GDP.

Today marks the approval of Namibia's first ever World Bank financed energy project, aimed at improving the reliability of the country's transmission network and enabling increased integration of renewable energy into the country's electricity system. The \$138.5 ...

Namibia's second-largest lender, Bank Windhoek last November issued a green bond on the Namibia Stock Exchange to fund renewable energy projects. It's also financing projects as implementing partner of the Sustainable Use of Natural Resources and Energy Finance Fund, which was established by the French Development Agency.
