I have also tried removing the SELL command from the loop, leaving only the BUY order, and it still doesn't buy. My solar station does however sell to other factions. It also has a M freighter as subordinate, which seems to work. The problem seems to be connected only to the L size freighter, even though I have 2 docks on the solar power plant.

Fly every ship, TRADE and FIGHT to BUILD your empire with modular station construction and THINK carefully when embarking on an epic journey.

Hi. I played X1-3 for some time, and I wanted to give X4 a try. I started flying around to get a feeling for the prices and goods for trading. But all prices and amounts make no sense for me. In the old X games I mostly start with energy cells. A solar power plant sold them for 12 Cr, and I could resell them for 19 Cr. But this doesn't work here in X4. The solar power plants got ...

I saw this same thing just now. I was clearing the last pieces out of a former xenon sector (now mine) and this one last solar plant suddenly turned neutral as I was just starting to hit it. Boom, it's now a neutral construction site deconstructing the former plant. Did they surrender? Hmm. They must be turning afraid of me. Muahaha!

All solar power plants in my universe got destroyed and now the Xenon are rampaging unchecked because none of the factions can build hull parts to make ships. ... is the X4 universe (with all current dlcs) different with each restart? 13. Solar collectors capture and concentrate sunlight to heat a synthetic oil called terminal, which then heats water to create steam. The steam is piped to an onsite turbine-generator to produce electricity, which is then transmitted over power lines. On cloudy days, the plant has a supplementary natural gas boiler. The plant can burn natural gas to heat the water, ...

This station produces energy cells. It is considered a basic factory, and requires no resources to maintain the production of its product. Energy cells are one of the most widely used commodity in the galaxy, necessary for supporting large infrastructures of manufacturing. Hello everyone. I've a massive Solar power plant in and built a little energy cell trading station in Windfall IV. To be clear, trading station has dock and storage modules. Also manager is assigned. But I can't use "repeating orders" behavior to transfer energy cells between stations or find energy cells in "Select trade wares" tab.
